

Seminar on latest Trends and Applications in Calorimetry

JOIN US FOR BUFFET LUNCH & PRESENTATION

VENUE:
TIME:
DATE:

HALL N°201, 2nd Floor, QNCC
10.00 AM
Thursday, 15th March 2018

PROGRAM:

- Environmental applications of Thermal Analysis and Calorimetry in CCS, H₂, Biomass, Materials for Thermal Energy Storage

- Applications of Thermal Analysis and Calorimetry to the Oil & Gas field
- Introduction of THEMYS, the latest High Pressure Thermal Analysis Platform
- Introduction of MicroSC, the latest SETARAM Calorimeter
- Application of SETSYS TGA towards Solar Thermochemical Fuel Production

SPEAKERS:

Mr. Stephan Moreau
Product Manager
SETARAM Instrumentation
France

Mr. Rémi Andre
Scientific Director
SETARAM Instrumentation
France

Dr. Rahul Bhosale
Department of Chimecal Engineering
Qatar University

Dr. Konstantinos Kakosimos
Department of Chimecal Engineering
Texas A&M University at Qatar

REGISTRATION:

For confirmation, please call or email **SUNIL KUMAR**
Mob: +974 6626 5658
Email: sunilk@albalagh.com

PARTNERSHIP:

Microcalorimeter μ SC

THEMYS
New Thermal Analysis Platform
TGA, HP-TGA, STA, DTA/DSC, EGA

SETSYS Evolution
High-performance modular
Thermogravimetric Analyzer
(DTA/DSC, TGA, TGA-DTA/DSC, TMA)
